

Peake Technologies, LLC

Trusted Partnership through Trusted Solutions

Peake prides itself on its integrity, professionalism and knowledge of the IT/AV/Security industry and its constant changes. We market and deliver the best in class manufacturer solutions through industry leading wholesale distributors to help meet the demand by our contracting partners, design consultants and end-user clients.

BELDEN produces a comprehensive portfolio of connectivity and networking products into a variety of markets, including industrial, enterprise, and broadcast. Belden adds value to its highly differentiated, high-performance products through unsurpassed design and engineering, manufacturing excellence and customer service. In conjunction with its partners, these core strengths enable Belden to create end-to-end signal transmission solutions that meet the most demanding standards for data, sound, and video applications. **(End-to-End Copper/Fiber solutions: DataCenter /Enterprise for IT/AV/Security/IOT)**

JMA WIRELESS designs and builds next-generation communication systems, delivering the industry's most powerful technologies enabling 4G LTE, 5G, CBRS and LAA on networks worldwide. JMA XRAN™ leads the industry with the only 100 percent software-based RAN platform, combined with TEKO™, NWA V, and RF distribution technologies. JMA's millimeter wave IOTA platform provides a best in class radio footprint

NETSOURCE is an industry leader in Network Copper, Fiber and Audio Cords and Pre-Term assemblies. NetSource offers COTS and Custom fiber and copper cords. All products made to order to specific customer requirements and are assembled in the United States. **(Patching/Pre-Terminated Copper/Fiber/CoAxial solutions)**

SUMITOMO Electric Lightwave is a recognized leader in the innovation, design, development, and manufacturing of advanced and integrated end-to-end solutions for data center, enterprise, and communication network customers. **(High Density Optical Solutions, Splicing solutions/ splicing equipment)**

CAMBRIDGE SOUND The World Leader in Sound Masking. Sound masking is the process of adding background sound to reduce noise distractions, protect speech privacy and increase office comfort. **(Sound Masking)**

➤ Peake Technologies, LLC

➤ Trusted Partnership through Trusted Solutions

HOFFMAN Vent HOFFMAN is a leading designer and manufacturer of systems to safely protect the electronic controls and mission critical electrical systems in industrial, data communications, commercial construction and government applications nVent HOFFMAN products comply with UL, NEMA and CSA (**Enclosures & Cabinets**)

CADDY offers fastening and cable support products for use in electrical installation, datacom, telecom, fire protection, seismic and HVAC applications. (**J-Hook Support Systems, Seismic Supports, & Fastening Systems**)

WBT offers higher quality 'PERFORMANCE' cable tray, **100% manufactured in the U.S.**, utilizing 100% domestic recycled steel, with minimized environmental impact finishes. WBT offers better cabling support, opportunities for LEED submittal documentation, and engineering support. Our Shaped Wire (Patented) constructions are documented to decrease pressure/strain on high performance cabling up to 65%. (**Industry leading Wire Basket Tray**)

CYBERPOWER manufactures professional-grade power protection equipment. These proven, trusted power management solutions meet the most critical requirements of home offices, small-to-medium businesses, corporate offices, healthcare, government, and education facilities. (**UPS and Power Protection Systems**)

GCON Surveillance provides a best in class service program for all of our enterprise products. We believe that great support starts before the purchase, so our consultants are here to guide you through the process of choosing the right standard and custom service packages. (**Video and Data Storage**)

SURECALL specializes in the design and manufacture of cell phone signal boosters, amplifiers and accessories. SureCalls's flagship product line of FCC-approved cell phone signal boosters enhance the range and reception of almost any cellular transmission, including voice or 4G data. (**Cellular Enhancement solutions**)

SILVER LININGS SYSTEMS delivers the most efficient heat management and protection for your vital IT equipment. Our electro-thermal systems prevent damage and guard against downtime, so you never lose access to the data your business relies on. (**Environmental Modular Indoor and Outdoor Containment**)
