PEAKE TECHNOLOGIES

2025 LINE CARD

Trusted Partnerships Through Trusted Solutions

At Peake Technologies, we take pride in our integrity, professionalism, and deep expertise in the ever-evolving IT, AV, and security industries. We deliver best-in-class manufacturer solutions through industry-leading wholesale distributors, meeting the demands of our contracting partners, design consultants, and end-user clients.

BELDEN
SENDING ALL THE RIGHT SIGNALS

Comprehensive connectivity and networking solutions delivering superior performance across diverse markets:

- **IT/AV/Security/IoT:** End-to-end copper and fiber solutions for industrial, enterprise, and broadcast applications.
- **Data Transmission:** High-performance products for data, sound, and video applications.
- **Engineering Excellence:** Industry-leading customer service and design capabilities.

NETSOURCE

Tailored network solutions designed to meet the unique demands of clients, with a focus on:

- Fiber and copper cords and trunks designed to order.
- **Assembly Excellence:** Patching and pre-terminated copper, fiber, and coaxial solutions.
- **U.S.-Based Manufacturing:** All products are made to order and assembled domestically.

---

nVent

- Manufacturer of Data Communication Cabinets, Cooling Products for Data Center Applications, and Power Distribution Units.
- Provides systems that improve safety, reliability, and performance.

WBT LLC nVent

- Specializes in cable management systems and solutions for wiring infrastructure.
- Wire Basket Tray systems
- Liners and Preform

SUMITOMO ELECTRIC LIGHTWAVE

- Leader in high-density optical solutions, splicing solutions, and splicing equipment.
- High Density Fiber connectivity solutions
- Offers innovative end-to-end solutions for data center, enterprise, and communication networks.

---

biamp.

- **Cambridge Sound:** World leader in sound masking technology to reduce noise distractions, enhance speech privacy, and improve office comfort.
- **Vocia:** Reliable paging and voice communication solutions for diverse environments.

JMA WIRELESS

- Designs next-generation communication systems with leading technologies in **4G LTE, 5G, CBRS, and LAA.**
- Features the XRAN™ platform, the industry's only **100% software-based RAN solution.**
- Offers millimeter wave IOTA platforms and RF distribution technologies.

VOLTSERVER DIGITAL ELECTRICITY™

Reliable power distribution solutions tailored to diverse applications, providing expertise in intelligent, safe, and efficient power for industries such as:

- **Wireless Densification:** Supporting 5G and Wi-Fi networks.
- **Intelligent Buildings:** Seamless and cost-effective power solutions.
- **Indoor Agriculture:** Enhanced control over lighting and environmental systems.
- **Industrial Transformation:** Optimizing manufacturing processes with automation.

CyberPower®

- Manufacturer of **professional-grade** power protection and UPS systems.
- **Solutions tailored** for corporate offices, healthcare, government, and education sectors.

GCON SYSTEMS

- Specializes in custom NVR Solutions and Storage Applications. GCON is VMS Agnostic.

FLUKE networks®

- A global leader in certification, troubleshooting, and installation tools for professionals who build and maintain critical network cabling infrastructure.

WaveTrax®

WaveTrax®, the Amphenol fiber raceway system, is an end-to-end solution designed to help engineers deliver reliable fiber optic network performance. WaveTrax snap-together components reduce time and cost on installation by 50 percent and on retrofits by 60 percent. Benefits of the WaveTrax system:

- Your custom configured solution is designed by Amphenol fiber engineers
- Directional fittings meet most network configurations
- Competitive adapters allow improvements to raceway
